

# **CROATIA-SPAIN PEN PAL PROJECT**

<b>ABOUT THE PROJECT</b>	Doing a pen pal project between two different schools is a great way for kids to improve their English since it will let them write and talk in English with others. eTwinning platform provides us, both children and teachers, with a perfect opportunity to put our work into a real context, as well as offer the students a chance to meet new friends, their culture and customs. The fact that their pen pals are from a different country will make them aware of many differences between their countries and hopefully motivate them to explore the world outside the classroom.
