

E.F.E.S Eco-Friendly Eco-Schools

Description:

Our aim is to provide environmental awareness, environmental management and sustainable development training in our institutions. With a participatory approach, students in schools will both learn about environmental issues and play an active role in raising awareness of their families, local governments and non-governmental organizations (NGOs) on environmental issues.

Language: English	
Participants: 8-15	
Subjects: nature, social studies, geography, science	
Aims:	
Students	Institutions
